INDEX

Abberger, Benjamin F., Jr., Wood, Sarah H., and Buddingh, G. J., 363

ABO incompatibility, studies on erythroblastosis due to, 503

Acidosis, hyperchloraemic, renal, induced, 64

ACTH-17-hydroxycorticosteroid response test, standard, evaluation of in children. Studies of 17-hydroxycorticosteroids, 403

Address changes and deaths of members of Academy, 83, 192, 282, 390, 502, 599

Afibrinogenemia, congenital, 44

Age method, skeletal, of estimating children's development, evaluation of. II. Variable errors in assessment of roentgenograms, 165

Aldrich, Robert A., Steinberg, A. G., and Campbell, D. C., 133

Allen, Fred H., Jr., 509

Alveolar rupture, factors involved in production of with mechanical aids to respiration, 146

American Academy for Cerebral Palsy, 192

American Academy of Pediatrics, 74, 274
- Address changes and deaths of members, 83, 192, 282, 390, 502, 599
- Areal Meeting, Vol. 13:6, page iv
- Committee on School Health, report of, 74
- Constitution of International Paediatric Association, 274
- Twenty-third Annual Meeting, Vol. 13:6, page iv

American Board of Pediatrics, 390, 391
- Diplomates certified, 391

Anderson, Dorothy H., Harris, Ruth C., and Day, R. L., 293

Anemia, hemolytic, nonspherocytic, hereditary, presenting as hemolytic disease of newborn infant, 41

Anemia, hypoplastic, congenital, 218

Anemia, sickle cell, impairment of urinary concentration in, 352

Angle, Carol R., 257

Angulation, bowing and, of long bones, congenital, 257

Announcements, news and, 83, 192, 282, 390, 502, 599

Anomalies, congenital in the rat, produced by excessive intake of Vitamin A during pregnancy, 556

Anomalies of larynx associated with tracheo-oesophageal fistula, 150

Anorectal rings in infancy, incidence and significance, 59

Antibodies, neutralizing, persistence of in human subjects three years after oral administration of rodent-adapted strain of poliomyelitis virus, 203

Anus, anorectal rings in infancy, incidence and significance, 59

Ascariasis, intestinal obstruction due to; report of 31 cases, 419

Atmospheres, supersaturated, effect of an insensible water loss in newborn infant, 126

Atresia, biliary, report of three fatal cases in siblings simulating; viral hepatitis in early infancy, 447

Atrioventricular heart block, complete, transient, of unknown etiology, 326

Aureomycin, vitamin B_{12} and, effects of on nitrogen retention in infants, 462

Bacteriostatic and complement activation of serum. Studies of immunology of newborn infant, 339

Barba, Philip S., 1

Barnett, Henry I., Tudvad, F., and McNamara, Helen, 4

Beach, M. W., and Jenkins, Margaret Q., 419

Berthrong, Morgan, Wilkins, L., and Clayton, G. W., 235

Bicarbonate and potassium, renal response of premature infants to administration of, 4

Bigler, John A., Holinger, P. H., Johnston, K. C., and Schiller, F., 476

Bile, obstructive jaundice in infants with normal biliary tree, 293

Biliary atresia, report of three fatal cases in siblings simulating; viral hepatitis in early infancy, 447

Biliary tree, normal, obstructive jaundice in infants with, 293

Bilirubin encephalopathy, 319

Bleisch, Virgil R., and Shwachman, H., 426

Bloody diarrhea, draining ears and eczematoid dermatitis, pedigree demonstrating sex-linked recessive condition characterized by, 133

Blood flow, increased, to lungs, large hearts and, problem of differential diagnosis in infants, with, 30

Blood, studies of serum electrolyte changes during exchange transfusion, 412

Bones, bowing and angulation of, congenital, 257

Book reviews
- Year Book of Pediatrics (bk), 192

Bowing and angulation of long bones, congenital, 257

Brain, bilirubin encephalopathy, 319

Bray, Patrick F., Ely, R. S., Raile, R. B., and Kelley, V. C., 403

Britain, pediatric private practice in, 576

British National Health Service, 487, 576
Bronchiolitis, acute, etiology of infants, inquiry into, 363
Bruton, Ogdon, Crosby, W. H., and Motulsky, A. G., 41
Buddingh, G. John, Wood, Sarah H., and Abberger, Benjamin F., Jr., 363
Burgert, E. Omer, Jr., Kennedy, R. L. J., and Pease, Gertrude L., 218
Burnett, H. W., Keegan, J. M., and Marshall, Florence N., 521

Calcagno, Philip L., and Rubin, M. I., 193
Calcium serum, and phosphorus levels in infants during first week of life, effects of vitamin D on, 178
Campbell, Donald C., Aldrich, R. A., and Steinberg, A. G., 133
Carbohydrate, added, effect of on growth, nitrogen retention and renal water excretion in premature infants, 193
Carter, Sidney H., Walsh, Faith C., and Poser, Charles M., 536
Caughey, Ronald H., Kaye, R., and McCrory, W. W., 462
Cell, sickle, anemia, impairment of urinary concentration in, 352
Chemical homeostasis in the newborn infant of diabetic mothers, 527
Chemotherapy of respiratory viral diseases, 593
Cheung, M. W., Kunz, Hans W., Pratt, Edward L., and Mellin, Gilbert W., 352
Child, undernourished, studies on, 544
Childhood
  mitral commissurotomy in, 454
  myasthenia gravis in, 511
  serum cholinesterase values in health and disease, 426
  spirometric analysis of lung function following pulmonary resection in, 17
Children
  affected with third degree malnutrition, duodenal contents in, enzymatid activity of, 544
  and home accidents, 568
  day care of, 376
  evaluation of standard ACTH-17-hydroxycorticosteroid response test in. Studies of 17-hydroxycorticosteroids, 403
  foster, group work with in pediatric clinic, 103
  ill, group discussions with parents of, 269
  infants and, studies of iron requirements in.
    I. Normal values for serum iron, copper and free erythrocyte protoporphyrin, 107
  malnourished, use of cortisone in; clinical study, 439
  retarded, home training program for, 278
  salmonellosis in, 247
  skeletal age method of estimating development, evaluation of
    II. Variable errors in assessment of roentgenograms, 165
Cholinesterase values, serum, in childhood in health and disease, 426
Christie, Amos, 500
Chromatographic technic, paper, case of galactosemia identified in four day old infant by, 211
Cirrhosis of liver, investigation of infant born of mother suffering from, 293
Clausen, Samuel W., Miller, G., McCoord, Augusta B., and Joos, H. A., 412
Clayton, George W., Wilkins, L., and Berthrong, M., 235
Clinic, pediatric, group work with foster children in, 103
Cohlan, Sidney Q., 556
Columbia University, Department of Neurology, 536
Congenital afibrinogenemia, 44
Congenital anomalies in the rat, produced by excessive intake of vitamin A during pregnancy, 556
Congenital bowing and angulation of long bones, 257
Congenital hypoplastic anemia, 218
Constitutional precocious puberty, familial, in boy three years of age; report of case, 174
Convulsions, intractable, report of case of in infant controlled by pyridoxine; pyridoxine dependency, 140
Copper, serum iron and free erythrocyte protoporphyrin, normal values for. Studies of iron requirements in infants and children, 107
Corbin, H. Penuel, F., Harris, Lloyd E., and Hill, John R., 59
Corporation's stake in independent education, 380
Cortisone, use of in malnourished children, clinical study of, 439
Craig, John, 487
Cravioto, Joaquin, Gomez, Frederico, Galvan, Rafael, R., and Frenk, Silvestre, 544
Cretins, development of goiters in, without iodine deficiency; hypothyroidism due to apparent inability of thyroid gland to synthesize hormone, 235
Crosby, William K., Bruton, O. C., and Motulsky, A. G., 41
Crouch, Walter L., and Epstein, Harold C., 553
Culture methods, tissue, application of to study of viral infections, 283
Cunnick, Dorothy Gildea, and Finberg, Laurence, 103
Cystic fibrosis of pancreas, pulmonary function in, 155

D, vitamin, effects of on serum calcium and phosphorus levels in infants during first week of life, 178
Dancis, Joseph, and Kunz, Hans W., 339
Darrow, Daniel C., 373
Day care of children, 376
Day, Richard, and Haines, Miriam S., 333
Day, Richard, Harris, Ruth C., and Anderson, Dorothy H., 293
Delinquency, juvenile, 188
Delory, G. E., Israels, S., and Gourley, Beth, 64
Del Servicio de Nutrition del Hospital Infantil de Mexico, 544
Dennis, J. M., and Kaiser, Albert D., 568
Dermatitis, eczematoid, draining ears and bloody diarrhea, pedigree demonstrating sex-linked recessive condition characterized by, 133
Development, children's, evaluation of skeletal age method of estimating. II. Variable errors in assessment of roentgenograms, 165
Diabetic mothers, chemical homeostasis in newborn infant of, 527
Diagnosis, differential, problem of in infants with large hearts and increased blood flow to lungs, 30
Diagnosis, tools and methods of, and new trends in treatments of endocrine disorders, 393
Diamond, Louis K., 509
Diarrhea, bloody, draining ears and eczematoid dermatitis, pedigree demonstrating sex-linked condition characterized by, 133
Discussions, group, with parents of ill children, 269
Dittmann, Barbara, and Luzzatti, Luigi, 269
Draining ears, eczematoid dermatitis and bloody diarrhea, pedigree demonstrating sex-linked recessive condition characterized by, 133
Duodenal contents in children affected with third degree malnutrition, enzymatic activity of, 544

Early childhood, Myasthenia gravis in, 511
Ears, draining, eczematoid dermatitis and bloody diarrhea, pedigree demonstrating sex-linked recessive condition characterized by, 133
Eczematoid dermatitis, draining ears and bloody diarrhea, pedigree demonstrating sex-linked recessive condition characterized by, 133
Education, 278, 380, 500, 590
  higher, New England regional compact for, 101
  independent, corporation's stake in, 380
Electrolyte changes, serum, during exchange transfusion, studies of, 412
Ely, Robert S., Raile, Richard B., Bray, Patrick F., and Kelley, Vincent O., 403
Encephalitis, infectious mononucleosis, 536
Encephalopathy, bilirubin, 319
Endocrine disorders, tools, and methods of diagnosis and new trends in treatment of, 393
Enzymatic activity of the duodenal contents in children affected with third degree malnutrition, 544
Epstein, Harold C., and Crouch, Walter L., 553
Erythroblastosis, due to ABO incompatibility, study of, 503
Erythroblastosis fetalis, intelligence quotients of children recovered from since introduction of exchange transfusion, 333
Erythrocyte protoporphyrin, free, normal values for serum iron, copper and, studies of iron requirements in infants and children, 107
Erythrocytes, hydrogen peroxide of, in premature infants, relation between serum tocopherol and hemolysis, in, 346
Erythrocytes, studies of mechanical fragility of. II. Relation to physiologic jaundice of newborn infant, 24
Esophagus, anomalies of larynx associated with tracheo-oesophageal fistula, 150
Esserman, Arthur, L., 192
Estudio sobre el niño desnutrido, 544
Etiology of acute bronchiolitis of infants, inquiry into, 363
Evans, I. W. J., Hooper, J. M. D., and Stapleton, T., 206
Evans, Philip, 576
Excessive intake of vitamin A, during pregnancy, congenital anomalies in the rat, produced by, 556
Exchange transfusion, intelligence quotients of children recovered from erythroblastosis fetalis since introduction of, 333
Exchange transfusion, studies of serum electrolyte changes during, 412

Ferencz, Charlotte, Johnson, Arnold L., and Goldbloom, Alton, 30
Fibrosis, cystic, of pancreas, pulmonary function in, 155
Fields, Jay, 566
Fifth National Congress of Pediatrics, 282
Finberg, Laurence, and Cunnick, Dorothy Gildea, 103
Fischer, Enid, 509
Fistula, anomalies of larynx associated with tracheo-oesophageal, 150
Fleming, Marilyn M., Gibbs, E. L., and Gibbs, Frederic A., 64
Foster children, group work in pediatric clinic, 103
Foster, Mary Karpiak, 574

Fragility, mechanical, of erythrocytes, studies of. II. Relation to physiologic jaundice of newborn infant, 24
Frenk, Silvestre, Carvioto, Joaquin, Gómez, Frederico, and Gálvan, Rafael R., 544
Freundlich, Emil and Glaser, K., 439
Frick, Paul G., and McQuarrie, I., 44

Galactosemia, case of identified in four day old infant by paper chromatographic technic, 211
Gallbladder, obstructive jaundice in infants with normal biliary tree, 293
Gálvan, Rafael R., Cravioto, Joaquin, Gómez, Frederico, and Frank, Silvestre, 544
Garcia, R. Andres, 192
Gardner, Lytt I., 89
Gellis, Sidney S., 192
Gellis, Sidney S., Hsia, D. Yi-Yung, and Goldbloom, Richard B., 24
Gellis, Sidney S., and Hsia, D. Yi-Yung, 503
Giannini, Margaret Joan, Snyder, E., Michal-Smith, H., and Slobody, L. B., 278
Gibbs, E. L., Fleming, Marilyn M., and Gibbs, F. A., 66
Gibbs, Frederic A., Gibbs, E. L., and Fleming, Marilyn M., 64
Gibson, Thomas A., 392
Gill, James M., and Grieve, Charles B., 576
Gittleman, I. F., Pincus, J. B., Sobel, A. E., and Schmerzler, E., 178
Gland, thyroid, apparent inability of, to synthesize hormone, hypothyroid due to; development of goiters in cretins without iodine deficiency, 235
Glasser, Kurt, and Freundlich, Emil, 439
Goiters in cretins without iodine deficiency, development of: hypothyroidism due to apparent inability of thyroid gland to synthesize hormone, 235
Goldbloom, Alton, Ferencz, Charlotte, and Johnson, A. L., 30
Goldbloom, Richard B., Hsia, D., and Gellis, Sidney S., 24
Gómez, Frederico, Gálvan, Rafael R., Cravioto, J., and Frenk, Silvestre, 544
Gourley, Beth, Israels, S., and Delory, G. E., 64
Graham, Bruce D., Lowrey, George H., Tsao, M. U., Sloan, C., Wyngarden, L., and Wark, S., 527
Graham, Frank P., 92
Green, Sidney, 509
Grieve, Charles B., and Gill, James M., 576
Group discussions with parents of ill children, 269
Group work with foster children in pediatric clinic, 103
Growth, nitrogen retention and renal water excretion in premature infants, effect of added carbohydrate on, 193

Haines, Miriam S., and Day, Richard, 333
Hall, E. G., and Sayre, J. W., 150
Hansen, John D. L., O'Brien, Donough, and Smith, Clement A., 126
Harper, Paul A., 89, 186, 373, 487, 576
Harris, Lloyd E., Corbin, H. Penuel F., and Hill, John R., 59
Harris, Ruth C., Andersen, Dorothy H., and Day, Richard L., 293
Harvard Medical School, 282
Health policies, school: report of committee on school health, 74
Health, public, nursing and medical social work, 103, 376, 588
Health, school, report of committee on: school health problems, 74
Heart block, atrioventricular, complete, transient, of unknown etiology, 326
Heart, mitral commissurotomy in childhood, 454
Heart, patent ductus arteriosus in infancy, 357
Hearts, large, and increased blood flow to lungs, infants with, problem of differential diagnosis in, 30
Hemolysis, serum tocopherol and relation between in hydrogen peroxide of erythrocytes in premature infants, 346
Hemolytic anemia, nonspherocytic hereditary, presenting as hemolytic disease of newborn infant, 41
Hemolytic disease of newborn infant, hereditary nonspherocytic hemolytic anemia presenting as, 41
Henderson, Alfred C., 192
Hepatitis, viral, in early infancy: report of three fatal cases in siblings simulating biliary atresia, 447
Hereditary nonspherocytic hemolytic anemia presenting as hemolytic disease of newborn infant, 41
Herpes simplex of the newborn infant, 553
Hill, John R., Harris, Lloyd E., and Corbin, H. Penuel F., 59
Hill, Lee Forrest, 601
Holinger, Paul H., Bigler, J. A., Johnston, K. C., and Schiller, F., 476
Home accidents and children, are they preventable? 568
Home training program for retarded children, 278
Homeostasis, chemical, in the newborn infant of diabetic mothers, 527
Hooper, J. M. D., Evans, I. W. J., and Stapleton, T., 206
Hormone, hypothyroidism due to apparent inability of thyroid gland to synthesize; development of goiters in cretins without iodine deficiency, 235
Horsfall, F. L., Jr., 593
Hsai, David Yi-Yung, Goldbloom, R. B., and Gellis, S. S., 24

Hubbard, John P., 101, 186, 188, 496
Hunt, Andrew D., Jr., Stokes, J., Jr., McCrory, W. W., and Stroud, H. H., 140
Hydrogen peroxide of erythrocytes in premature infants, relation between serum tocopherol and hemolysis in, 346
17-hydroxycorticosteroids, studies of. IV. Evaluation of standard ACTH-17-hydroxycorticosteroid response test in children, 403
Hyperchloraemic acidosis, renal, induced, 64
Hyperparathyroidism, maternal, effect of; neonatal tetany in two siblings, 227
Hypoplastic anemia, congenital, 218
Hypothyroidism due to apparent inability of thyroid gland to synthesize hormone; development of goiters in cretins without iodine deficiency, 235
Hypsarhythmia and infantile spasms, diagnosis and prognosis of, 66

Immunology of newborn infant, studies of. VI. Bacteriostatic and complement activation of serum, 339
Infancy
  anorectal rings in: incidence and significance, 59
  early, viral hepatitis in; report of three fatal cases in siblings simulating biliary atresia, 447
  patent ductus arterosus in, 357
  tracheotomy in, 476
Infant
  born of mother suffering from cirrhosis of liver, investigation of, 293
  controlled by pyridoxine, report of case of intractable convulsions in; pyridoxine dependency, 140
  four day old, case of galactosemia identified in by paper chromatographic technic, 211
  newborn, effect of supersaturated atmospheres on insensible water loss in, 126
  newborn hemolytic disease of, hereditary nonspherocytic hemolytic presenting as, 41
  newborn, Herpes simplex of, 553
  newborn of diabetic mothers, chemical homeostasis in, 527
  newborn, relation to physiologic jaundice of. Studies of mechanical fragility of erythrocytes, 24
  newborn, resting pulmonary water loss in, 206
  newborn, studies of immunology of. VI. Bacteriostatic and complement activation of serum, 339
Infants
  and children, studies of iron requirements in. I. Normal values for serum iron, copper and free erythrocyte protoporphyrin, 107
  during first week of life, effects of vitamin D on serum calcium and phosphorus levels in, 178
  effects of vitamin B_{12} and aureomycin on nitrogen retention in, 462
  inquiry into etiology of acute bronchiolitis of, 363
  premature, effect of added carbohydrate on growth, nitrogen retention and renal water excretion, 193
  premature, relation between serum tocopherol and hemolysis in hydrogen peroxide of erythrocytes in, 346
  premature, renal response of to administration of bicarbonate and potassium, 4
  with large hearts and increased blood flow to lungs, problem of differential diagnosis, 30
  with normal biliary tree, obstruction jaundice in, 293
Infantile spasms, hyperrhythmia and, diagnosis and prognosis of, 66
Infections, viral, application of tissue culture methods to study of, 283
Infectious mononucleosis encephalitis, 536
Intelligence quotients of children recovered from erythroblastosis fetalis since introducduction of exchange transfusion, 333
International Congress of Pediatrics, 390
International Paediatric Association, constitution of; report of Secretary-General, 274
Intestinal obstruction due to ascariasis; report of 31 cases, 419
Iodine deficiency, development of goiters in cretins without; hypothyroidism due to apparent inability of thyroid gland to synthesize hormone, 235
Iron requirements in infants and children, studies of. I. Normal values for serum iron, copper and free erythrocyte protoporphyrin, 107
Irradiation therapy in the treatment of neuroblastoma, role of, 521
Israels, S., Delory, G. E., and Gourley, Beth, 64

Jaundice, obstructive, in infants with normal biliary tree, 293
Jaundice, physiologic, of newborn infant, relation to. Studies of mechanical fragility of erythrocytes, 24
Jenkins, Margaret Q., and Beach, M. W., 419
Jervis, George A., Koprowski, H., and Norton, T. W., 203
Johnson, Arnold L., Ferencz, Charlotte, and Goldbloom, A., 30
Johnston, Kenneth C., Bigler, J. A., Hollinger, P. H., and Schiller, F., 476

Jones, Alan R., 504, 509
Joos, Howard A., Miller, G., McCoord, Augusta B., and Clausen, S. W., 412
Juvenile delinquency, 188
